## General Tips

- Do not shine product directly into eyes.
- Close supervision is necessary for when the product is used near children. Do not allow the product to be used as a toy.
- When product is not in use, store in a cool place for longer battery life. Ideally charge for 1-2 hours before storing.
- Do not submerge in water.

## Cleaning

Ensure the product is switched off and properly cooled before performing any type of cleaning. Use only a moistened soft cloth to clean. Do not use solvents or abrasive cleaners.

## Charging the light

The utility light can be recharged from any USB port. To charge, simply plug the cable to the micro USB socket. **Only recharge when it is OFF**

## Charging your device

The power bank has a single USB output of 2.1A, ideal for charging smart phones and other electronic devices.  
*Note: If you are using battery intensive applications or features on your phone whilst using the power bank to charge it, you may not notice a big increase in the battery level as you are draining the phone battery at the same time.*

## Instruction

1. White light switch: Press one for maximum brightness mode.  
Press again for power saving mode.  
Press and hold for two seconds to turn it OFF
2. SOS switch: press one for SOS mode  
Press again to turn OFF
3. LED indicator light: It stays red when charging and turns green after being fully charged.
4. When battery is low, the indicator light will flash red.

## Caution

1. This portable light uses automatic identification technology. Please use a device that has fixed 5V DC output voltage (0.5A-2A) to charge the light.
2. When the battery is exhausted, it will automatically turn off, connect the charger to use.
